

Remarks

The first of the two above amendments has been introduced to insert the proper serial number for the priority provisional application. This number was also indicated in the Declaration filed on May 12, 2004 in response to a Notice of Missing Parts of application. The second amendment is a paragraph regarding possible government rights. It is being added to correct an inadvertence, in order to clarify that partial support for the subject matter of the application was provided from the National Science Foundation. No new matter is involved in these amendments.

Respectfully submitted,

---
